- Open the software
- Select 'File -> Open' to choose your file
- In this example, we will be working with the axis\_gear.fcstd, which is the Axis Gear of the Rotator

#### Step 2 — Part

- On the left hand menu, select the "solid" part of the gear
  - Depending on how the model was created, it will be different, but in this case it is 'fillet'
- Select 'File -> Export' to save your part as an .stl file.
